

## **USDt to Cash THB QR Code in Thai: How to Cash Out & Exchange using <https://www.cash-partners.com/exchange/usdt-thb-cash-thai-qr-code-atm.html>**

To cash out and exchange USDt to Thai Baht (THB) using the QR code ATM service as described on the Cash Partners website, you follow these steps:

1. Enter the amount of USDt (Tether) in the interactive form on the page.
2. Check the exchange rate provided to see if it is acceptable.
3. Click or tap on the "Exchange" button to proceed.
4. Submit a request by filling out a form with your username for auto-registration and contact details for notifications.
5. You will receive a USDt wallet address to send your funds to (using the TRC20 network).
6. Once your USDt transfer is confirmed, you receive a QR code.
7. Use the QR code to withdraw cash in Thai Baht from an ATM in Thailand.

No bank card is required for this procedure, making it convenient for cash withdrawals via QR code in Thailand.

If you want more details or a step-by-step guide, I can provide that based on the information from the link you provided. Let me know!
